St. Anselm's Catholic Primary School

28/05/2021

Dear Parents

It seems remarkable that we have arrived at the summer half term, and that this rather disjointed school year will soon be coming to an end. Despite all the restrictions that are still in place, it has been a very productive half term. The children continue to impress us with how well they have adapted to all the changes which have quickly become their new normal. They have worked hard and are making good progress. We wait in anticipation to see how and when the DfE Schools' Operational Guidance will be updated. There is no indication yet as to when this will happen, and whether it will be concurrent with the next stage of the roadmap and so, until then, we are required to continue with all the school restrictions that are currently outlined in this document.

The children have just enjoyed another science week. During her last visit, our school link inspector undertook a thorough inspection of our science provision. She felt that the week-long focus on science is very successful, allowing children to 'think more deeply about science and teachers to promote their higher order thinking skills'. She felt that 'all pupils are challenged well and have the opportunity to develop into critical thinkers.' I am grateful to all the class teachers for their hard work, and particularly to Mrs Carter who leads science in our school with such passion and dedication.

## School Street update

We are very pleased to be able to confirm that an ANPR camera will be installed at the Elmbourne Road end of Louisville Road which will help to enforce the closure of our street at the beginning and the end of the day.

Best wishes

H. Elmes

Some of our Year 6 children enjoyed a great morning at Spencer Cricket club.

## Dates

### June

7th Term begins

28th INSET day (school closed)

### July

6th Sports Day

12th Theme Week

23rd End of Term

We all learnt so much from the children during our Culture Day. Thank you for everything that you did to prepare them so well.
